

E3/797

L0001379

Minutes of the meeting
of Division and Independent Regiment
Secretary(s) and Deputy Secretary(s):
August 18, 1976 at 14:15'

Agenda:

I. Limitations on amount of land to be cultivated in the party's four-year plan:

- Land to be cultivated twice [a year] must yield [a total of] six tons.
- Ordinary land must yield three tons [a year].

II. Planting kapok trees, soybean, corns etc

III. Several enemy situations

IV. Others

- Petrol
- Water pumping

-Brother 89 proposes the Party's plan to the Army: Plan of once-a-year and twice-a-year rice growing of the Center's Army:

	Types of land	1977	1978	1979	1980
1	Amount of land to be cultivated twice a year (six tons)	1,000 hectares	2,000 hectares	3,000 hectares	4,000 hectares
2	Amount of land to be cultivated once a year (three tons)	4,000 hectares	4,000 hectares	4,000 hectares	4,000 hectares

Requested remainder of rice yields in Dollars:

-1977: \$ 480,000 -1978: \$ 1,000,000
-1979: \$ 1,600,000 -1980: \$ 1,800,000

This is for a 40,000-strong force as considered by Angkar.

-So, within a period of four years, [we] will earn a capital of \$ 4,880,000.

Staff's preliminary plan for 1977:

1. [Land] number 1 and number 2 to be cultivated twice a year with a yield of six tons:
6 tons x 2,000 = 12,000 tons

2. Ordinary land with a yield of three tons [a year]:

$$3 \text{ tons} \times 7,000 = 21,000 \text{ tons}$$

Total rice yielded: 33,000 tons

-Consumed as food: 312 kg x 65,000 = 20,000 tons

-Retained as seeds and for Social Work: 3,000 tons

-Rice left after grinding: 5,500 tons

-Capital earned: \$ 200 x 5,500 tons = 1,200,000 tons

Statistics of Land Number 1, Land Number 2 and Ordinary Land
in all divisions for the plan:

No.	Unit	Twice-a-year land (6 tons)	Once-a-year land (3 tons)	Once-a-year land (less then 3 tons)
1.	164		240 hectares	760 hectares
2.	703	580 hectares	400 hectares	200 hectares
3.	450	100 hectares	200 hectares	1,400 hectares
4.	310	500 hectares	1,000 hectares	450 hectares
5.	502	300 hectares	400 hectares	956 hectares
6.	170	200 hectares	500 hectares	700 hectares
7.	290	400 hectares	200 hectares	
8.	488	66 hectares	33 hectares	243 hectares
9.	377	00 hectares	100 hectares	100 hectares
10.	152	40 hectares	250 hectares	200 hectares
11.	S-21	20 hectares	350 hectares	100 hectares
12.	Mo. 63	00 hectares	236 hectares	290 hectares
Total		2,246 hectares	4,009 hectares	5,399 hectares

1. Twice-a-year land (6 tons): 6 tons x 2,246 = 13,476 tons

2. Once-a-year land (3 tons): 3 tons x 4,009 = 12,027 tons
25,503 tons

Final decision for 1977:

1. Twice-a-year land (6 tons): 2,000 hectares

2. Once-a-year land (3 tons): 7,000 hectares

-It is decided that a division plants 20,000 kapok trees. But, initially a division is required to plant 5,000 saplings [kapok].

III. Enemy situation:

-Comrade Pin:

-Two bandits have been captured at the sea.

-Internally, there are people who allowed the theft of weapons.

-There has been matters of theft and of desert.

-There has been conflicts: Rank and Reputation

E3/797

-It has been heard that villagers in Kraing Yov Sub-district conducted an uprising by convincing people to pick corn for food beyond their limited rations.

-Comrade Sok:

-A woman named Poeu was arrested in the vicinity of Prey Sar.
-Internally, in August, nine people have deserted.

-Comrade Suong:

-Internally, the contemptible Siek got involved with banditry, according to the contemptible Sen's answer.
-Regiment cadres hit and maltreated combatants.
-Within the month of August, 18 people deserted.

-Brother 89's conclusion:

1. Based on the reports as well as our observations, there has not been any serious conflicts concerning enemy situations during July and August on the borders in the east and the west. Actually, there has not had anything detrimental to the act of planting and that of military exercise of our Army.

2. It has not been seen any concerns about our country's internal situations; however there have had some new people--who are soldiers--taking resort into the forest or fleeing from one place to another. There exist rows over the matter of aliment, which causes some sort of disturbance as a result of hard laboring and starvation, and that was ignited by [people with] no-good elements.

Within internal military rank, some cadres and combatants have not been satisfied, igniting disputes, encouraging desertions, sidetracking guidelines and verbally opposing guidelines [of the party]. This is due in one part to our deeper and deeper revolutionary movement, and in another part to the enemy assignment networks.

Our measures:

1. Resume education until it will be seen that the revolutionary movement is extremely fast and that difficulties appear only temporarily if compared to the rest of the world. Be highly proud of our revolution as our socialist regime is very profound and our collective spirit high.

2. As for the assignment's side, pay attention to the building of the party, especially make the party cells perceive their tasks, educate and build up masses, and educate internal elements to be firmly in mastery of their tasks.

3. [People with] no-good elements must be definitely screened. [Our] principle and standpoint must be defined that external enemies are not able to harm us,

E3/797

but [we] must be careful with internal enemies by specifically carrying out education and handling disputes in time. Trivial squabbles must be settled thoroughly clean-cut. Always be in self-mastery.

Educate people until they understand about the socialist revolution as conflicts are due on one hand to enemy motivation and due on the other hand to the people having no perception of the guideline of the socialist revolution or lagging behind the situation of our revolutionary movement.
