*A hand written note in the upper left hand corner of this document reads, in English:
Guidance of Central Committee of CPK, to Misled Persons who have joined CIA, Yuon,
KGB opposed the Party, Revolution, People and DK.
June 20 '78.*

**Guidance of the Central Committee of the Communist Party of Kampuchea
On the Party's Policy towards Misled Persons who have joined the CIA , served as
Yuon Agents or joined the KGB and opposed the Party, Revolution,
People and Democratic Kampuchea**

For those who have been misled in accepting an assignment from the enemy, joining the CIA or serving as Yuon (Vietnamese) agents or joining the KGB and opposing the Party, Revolution, People and Democratic of Kampuchea, our Party has guidance as follows:

Firstly, for those who joined with the CIA, Yuon (Vietnam) or KGB from 1946-1967:

Whoever, even though he/she has already joined the CIA, Yuon (Vietnam) or KGB from 1946-1967, but later on, he/she has not committed any traitorous activities, such individual shall not be punished. The Party has determined that joining the CIA, Yuon or KGB at that time was the nature of the situation, during the circumstances in which the enemies were ravaging intensely and successively, in order to demonstrate their strengths so that people would be afraid of them, and since our revolutionary forces were still facing difficulties. Joining the CIA or Yuon or KGB was not right, however, our Party could tolerate them (exempt them from punishment), if they conducted no traitorous activity after this.

Secondly, for those who joined with the CIA, Yuon or KGB from 1968-1970:

For any person who joined the CIA, Yuon or KGB from 1968-1970, the Party shall not punish him/her though, if he /she has not done any traitorous activity later on. From 1968 to 1970 the political existence of our Party was raising up, and the revolutionary forces were also in more progress, and the guiding lights have all existed. However, the enemies were still stronger than us, and they were continuing to carry out their barbarous ravaging activities, which caused some to feel optimistic and confessed themselves to the situation at that time, then they have joined with the CIA, Yuon or KGB. In so doing they were wrong, but our party will not punish them, if they conducted no traitorous activity later on.

Thirdly, for those who joined with the CIA, Yuon or KGB from 1970-1975:

From 1970 to 16 April 1975, the subjectivity of our Party and Revolution were stronger. However, even if they have been misled and joined with the CIA, Yuon or KGB during

that period, our Party shall not punish them either. Joining with the CIA, Yuon or KGB, was wrong. But the Party shall tolerate them (not punish them), if they do not carry out any traitorous activity later on.

Fourthly, for those who joined with the CIA, Yuon or KGB from 1975-1978:

Regarding those who have joined the CIA, Yuon or KGB, after the liberation, the Party will divide them into two categories as follows:

First category: any person who is recalcitrant who still continues to carry out his/her activity against the CPK, the State Revolutionary Authority, the Workers – Farmers, the socialist collective regime, Kampuchean people, and the DK, such person shall be punished, because he/she is carrying out traitorous activity intentionally, with his/her resolute opposing stance, with his/her satisfaction stance in serving the enemies such as the CIA, Yuon and KGB. This sort of people has made the clear marks of their own boundaries, thus the CPK must eliminate them.

Second category: for any individual who stops to carry out the traitorous activity from this July 1978 onwards, and who tries to re-educate himself/herself, who makes his/her efforts in fulfilling the revolutionary duty, such individual shall not be punished.

The policy of the Party is to re-educate all the forces who can be reformed, and the Party and the people are making efforts in re-educating those who have been misled to turn them back as their own good flesh and blood, and to be good forever, in order to join forces in the defense and rebuilding of the country, and heightening the living standards of the people so that they will rapidly progress and step up towards prosperity in all fields.

Even for those who are carrying out the opposing activities, the Party has also divided them into many more types:

Type 1: Those who carry out the resolute opposing activities, as a network, by committing concrete acts successively.

Type 2: Those who are carrying out just some opposing activities by joining the activities with the groups as advised by the Type 1.

Type 3: Those who only express their oral statements to attack, stir up, incite, cause fracture according to the advice and propaganda from the Type 1.

Type 4: Those who have just been persuaded by the propaganda and whose names have just been recorded in the list as having been joining in the CIA, having joined with this, having joined with that ..., with or without having any understanding about it.

~~CONFIDENTIAL~~ 2189.1

Concerning the types 2, 3, and 4, the Party has a policy to re-educate and admonish them in order for them to be awakened, and to return to take sides with our Party, Revolution and People, instead.

For those who belong to type 4, the Party determines that they shall not be punished because they have been misled by the propaganda from the type 1 who deceived them. Therefore, those persons have to make efforts to re-educate themselves so that they will have a clear mind, then return to stand with the Party's, Revolution's and People's side, for fulfilling the duties very well and turning to oppose the traitors. The Party and the people will take into consideration in re-educating those misled persons in order to become clean people, and good revolutionists.

It is the same for those who belong to the types 2 and 3, these persons must try hard to re-educate themselves in order to have a clear mind and to be better again.

It is to note that even for those who belong to the type 1, the Party also has a policy to re-educate them by all possible means as feasible so that they will get rid of the misleading thoughts, be awakened and turn to take side with our Party's, Revolutions, Kampuchean People. Except for the resolute opposition group against the Party, Revolution, People and Democratic of Kampuchea who oppose successively as a network without changing their minds, who refuse to live with the Party, Revolution and People of Kampuchea; and instead, they resolutely bend down their heads crawling to serve the Yuon aggressor who swallows of the territory, the Soviet expansionist and its clique, the American imperialism and its clique, that the Party and the Kampuchean people must eliminate them.

The Party is appealing to all those who have been misled to come back and to unify their hearts and minds with our nations and people to defense and rebuild the country and to improve the living standards of the people for a speedy progress and for stepping up towards the prosperity in all fields.

This above Guidance of the Party is a political guideline, a basis for the Party in the building up and expanding the revolutionary forces to have greater number and with maximum strengths successively in accordance with a slogan which says: "The people and the mass of people are the enormous forces of the revolution – if there are a lot of strong people and mass of people's forces, the revolution will win".

The Party has a guideline of building up and expanding the revolutionary forces to be successively strong, which is why the Party has led the people to do the revolution, and for which it has received tremendous great victories successively.

With warmest revolutionary fraternity.
Made on 20 June 1978.
Central Committee of the CPK
