Respectfully sent to Beloved and Missed M-870

We would like to report on the situation at the boundary of Sector 23 as follows:

At 8:30 a.m. on 4 September 1976, the enemy dropped an audio-recording device down on Samraong Thmei (សំរោងថ្មី) village, Tuol Sdei (ទួលស្តី) sub-district, Chantrea (ចាន់ត្រា) district. When it arrived on the earth, it produced constant white noise. At that time, the cattle guarding children picked it up and disconnected electric wire until no more noise existed. This audio-recording device is a kind of square object similar to a box, which contained various wires and battery as well as a small umbrella. Before this device was dropped down, we had heard sound of many gun shots along the border near Tuol Sdei. Then, we had heard sound of aeroplane, but we had not seen it. Soon after that, this device was dropped down. Through our observation, this device belonged to the American imperialists.

As mentioned above, please, M-870, be notified.

Good health and success.
