To respected and beloved Brother Nuon (ប៊ុននួន)

Regarding the situation at the border, Group 7 has increased house construction activities more than before. However, the houses are built in the old place, in the border area which has not been demarcated yet. More precise details will be reported next time.

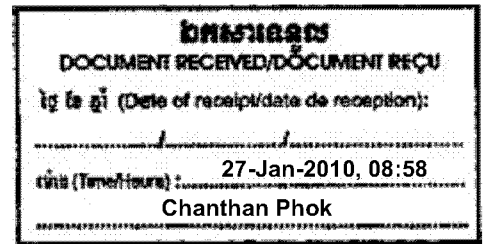

We would like to request the following items for water pumps...

1. Five pumpers of 15 cm in diameter for downward pumping
2. Five joint pipes of 16 cm in diameter
3. Five pumpers of 15 cm in diameter for upward pumping
4. Possibly some T-shaped fittings of 15 cm in diameter for connecting from the upper pumping
5. Five iron pots for smelting ploughshares and iron to produce pots

Regarding the water pipes requested above, they will be used for the water pumps previously given by Angkar, which do not have water pipes yet.

With warmest revolutionary fraternity,
2 November 1976

To beloved and missed comrade Doeun (ឌីន)

1. We would like to request grease for trucks and bulldozers.
2. We would like Angkar to provide us dump trucks to be used for road construction. Whatever trucks do not matter. If Angkar agrees, we would like to request ten more trucks to be used to carry gravel to build the road.

With warmest revolutionary fraternity,
6 November 1976
