Dear Bill,

Further to your request below (and the request of the IENG Sary Defence), WESU was able to reschedule Professor Campbell's flight to permit him to testify on Thursday 8 September at 9 a.m. Professor Campbell foresees that he will be able to complete the report by Tuesday COB for distribution to the parties. This will permit the parties one full working day to review the report prior to the hearing. I attach the modified trial schedule for the week of 5 November below.

Best Regards,

Roger

5-6 Nov.TCW-690

TCCP-89 (1/2 day for OCP and CPs; 1/2 day for all defence teams)

7 Nov

No Hearing

8 Nov.

Prof. Campbell and/or Dr. LOR

Subject: Request that the Experts Testify Two Full Working Days After the Report is Provided to the Parties.:
Requested Friday 9 November 2012.

Dear Roger

Thank you for the further information. In relation to the written report of the experts the Co-Prosecutors would request that the parties be given two full working days to review the experts report prior to them testifying.

This is to ensure that the parties can fully review the report and comprehend the conditions that are diagnosed. This way the hearing will inevitably be more effective. Therefore, if the report was made available on Tuesday we would request that the experts testify on Friday 9 November, leaving Wednesday and Thursday available to study the report due to its complex and specialized nature. We understand the time constraints the

Trial Chamber, experts and parties are under however the Co-Prosecutors believe this will provide a reasonable balancing of all the respective interests. If you can please pass on this request to the Trial Chamber.

Best Regards Bill

Mr. William Smith

Subject: Re: letter from Ieng Sary Defence re Mr. Ieng Sary's examination and any expert report

Dear Tanya,

I write in response to your letter of 26 October 2012. As to the request to appoint specialists who have been examining Mr. IENG Sary to prepare a detailed report and to give testimony, please note the need for the assistance of specialists was addressed in the appointment of Professor Campbell (E238) and Dr. LOR (E239). In particular in E238, the Trial Chamber requests the medical experts to:

- c) Consult with any other qualified person (such as a radiologist) whose assistance might be helpful in interpreting or confirming his conclusions on test results or on the local availability of specific medical tests he considers essential for a diagnosis of IENG Sary's current health status.
- d) Advise the Trial Chamber if any such medical tests are not available in Phnom Penh and/or

whether there is a sufficient medical or technological skill base in Phnom Penh to administer those tests adequately.

e) Report to the Trial Chamber on where and under what conditions medical tests that he considers are essential for confirming a diagnosis of IENG Sary's current health status might be carried out.

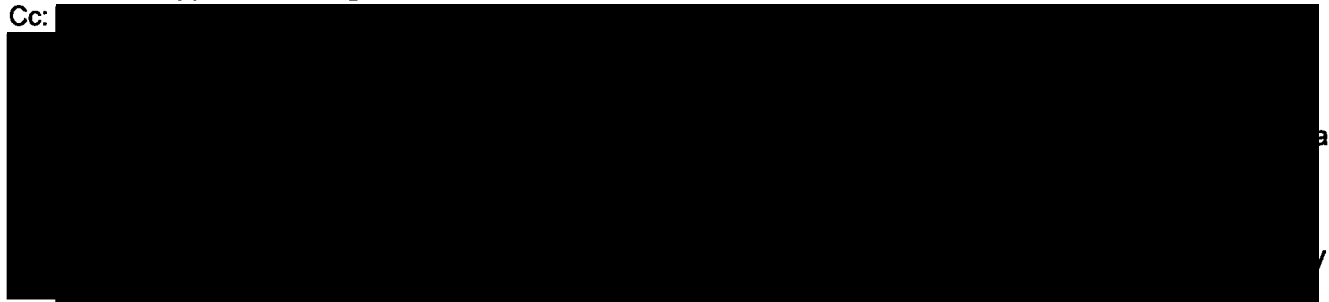

In addition, the Trial Chamber will provide the written report of the experts to the OCP, the Civil Party Lead Co-Lawyers and the IENG Sary Defence as soon as possible in advance of the medical experts' testimony.

Best Regards,

Roger
