Subject: Questions for the experts regarding Ieng Sary's health

សាធារណៈ / Public

Dear Mr. Phillips,

Following your request dated 24 October, please see below the Civil Party suggestions of questions to be addressed by the experts during their examination of Ieng Sary.

Questions to be addressed during the examination:

- Is there any aggravation from your 28th August examination?
- If yes, is it a physical one? (describe), a mental one( describe)?
- Is there any unfitness resulting from the current health conditions?
- Physical, mental (describe)?
- If yes, is it definitive?
- If not definitive, how much time is necessary for a health improvement?
- Could you comment the 19/09/2012 report, give your advice and suggestions on it?
- What are exactly the physical and mental issues, at the moment?
- What are the remedies ( namely technical ones) which can be envisaged, for physical health situation? For mental health situation?
- Do you think the treatment he is receiving (or should be receiving in the future) could be done at the ECCC premises?

All the best,

**Elisabeth Simonneau Fort**
