Dear Kenneth,

About the TMM and following the Trial Chamber's memorandum E301, the Civil Parties have so far no suggestions to be made to the proposed two items of the agenda.

They agree on this agenda and the 2 points: the scope and the tentative trial schedule, considering that each of them includes a lot of specific questions.

Among those questions are, for example, the issues of a fair trial, res judicata on legal issues, the panel of judges, the time and duration of the next trial, depending of the scope but not only .

We look forward reading the specific list of questions the Chamber will send to the parties in advance of the meeting.

Best regards,

Ang PICH, Elisabeth SIMONNEAU FORT
