We would like to report nine Yuon people fleeing from their country. According to their interrogations, they said the Yuon had assigned them to come to spy inside Kampuchea and live with the Kampuchean people in order to grasp the Kampuchean people. Now we have swept them away.

The second issue is the border situation at Tēh City (ក្រុងតែះ). The Yuon came to spy at the office while in Tēh City on 28 December 1977. They surrounded 10 metres away from the office. Now they have left, but have not yet reached Yuon territory. We are chasing and tracking them.

About the situation in Dāk Dam (ដាក់ដាំ), they are still inside. They came days ago, and have not yet withdrawn. Now we are attacking to make them withdraw, but they have still not left.

I wish you happiness and victory.
