### Report

This is to report for the knowledge of Comrade Ann that:

According to an advice from Angkar [it was] decided that a woman named O-A (អ៊ូ អ៊ា) be arrested and brought over to Your Comrade. She was a farmer and spouse of a Lt-Colonel (of the military). She has 3 Children.

This was concerning the disputes in which she said: "Doing the revolution is very difficult, we have to do the works days and nights, and are given gruel to eat; we cannot bear this sort of living. During the old regime, I had never been working, but still I had a car to take me when going down from my house, wherever I went, I always had a car to take me. But now, I have to do rice farming, it's very difficult!"

She had many more conflicts, but I cannot relate all of them.

Please be informed.

19/9.
