To: Lovely Comrade Elder Brother District Police, for his information.

I beg to give an information regarding the enemy activities, from here, as follows:

1). SUON Phy (ស្នួន ភី), age : 25 years old, 109 District, Takeo.

a- The current work activities, are that the contemptible SUON Phy is displeased with a decision that the Party made for the collective, such as to draw the youth manpower to build water irrigations in far distant areas. This contemptible person has always opposed the plan, and moreover, has incited the youths not to go out to work.

- The contemptible SUON Phy is good at stealing things which belong to the collective, of which he has stolen successively such as: coconuts, cassava roots, and chicken,...although we have tried to educate him in whatever manner, he did not abandon these bad deeds, and still he always continues his opposing activities.

b- The Contemptible CHUM Phorei (ជុំ ផ្នែវ) , from the same District 109, Takeo.

His work activities are the same as that of the Contemptible Phy, because they are both in the same group. His stealing activities are done together.

It is to confirm that this contemptible person is a hardheaded one, who has never confessed about his traitorous activities.

So please Comrade Elder Brother be informed of the above.

Party's Duty.

Report

I beg to report to your Comrade Brother as hereunder:

A person named YAING Kaub Visviramasan (យ៉ាំង កូប.វិសវីរ៉ាមាសាន) a female farmer, new people, in Âk Pornng Village (ភូមិអកពង) said that: “the more we do the revolution the more scarcity we are having, the more respect we do the more faults we are having”. This statement was spoken on 13-6-1978. In 1977, this young woman stole one bowl of paddy. After this, this young woman said that in the revolution food rations are limited, how much they are giving us to eat we can get to eat only that much. The husband of this young woman is named Beisassia Rithkoul (បេសាស៊ា រិកគល់) an Arabian (an owner of a Gas Station) who was separated from her on the way out of Phnom Penh.

Her working activities are average, but very often she was sick.

For the above issues, I request to your Comrade Elder Brother to interrogate her more, because Angkar has decided already that she be taken away. So I beg Your Comrade Elder Brother, to please be informed of.

Kouss, on 20/7/78.

Report

To respected Comrade Elder Brother Police of District 105, for his information.

It is about the activities of the enemy named KONG Vaet, which were mostly stealing, he was such a great stealer, who had been educated so far by the group, unit, and by the (collective) meetings for the past 3 years period, but he was not deterred. After he was individually educated by a hot measure, he had only confessed and said that the revolution I knew it. During the period of doing hard work of rice re-planting season, this person stated that: Have a look at those who have been flattered to work, how many ranks are they going to be promoted? How much rice are they going to be receiving? They are just foolish by the flattery. While we are just receiving one bowl of rice, equally; your guys should look at me here, I could either do the work or be sick.

The background history of this contemptible person was a military person under the Contemptible KONG Chhat and the contemptible HIN Nim, however, it is not known what rank he was.

Another person named PICH San, who according to information received from the people who also came from Phnom Penh with him said that he was a First-Lieutenant who was living in Khleang Rum Seiv (ឃុំរាំងស្រែ=Ammunitions Warehouses). He was very cruel. Recently this person has said "According to what I foresee, I would not be able to live in the native village any more- perhaps I must flee from this native village again".

A Vietnamese (យួន) named EM Sambath (ឯម សម្បត្តិ) son of the contemptible KIM Long (កូនអាតីមឡុង), his activities are: He drove a plow with intention to break it down for 5 times and abandoned it, did not take out the oxen to graze, sneaked out and crossed to Khporp Trabaek recently, to do the rice farming there, drove the oxen and the plow to fall off from a bridge which caused an ox to have one of its leg broken and was out of use until it died.

Therefore, I would like to physically send over the above 3 enemies along with this enclosed report for further interrogation in order to seek for the undercover networks of these enemies hiding in the villages and Communes and to take further measures in order to achieve according to the Guidelines of the Party.

To respected and beloved Comrade Meng, for His information.

I would like to send over to your Comrade, two (2) traitors:

1- A person named Ty (ទី), people from District 109, he was a Surgical Doctor, along with a report enclosed herewith. Moreover, after we assigned a militia to go to examine his house (Ty's house), it was found out that he had hidden approximately 2 kilograms of salt.

2- A person names Hâm alias CHAU Peuv Mony (ហម ហៅ ចៅ ពៅម៉ូនី) former combatant of Unit 190 which its Commander has betrayed, and almost all its members were also traitorous.

We have arrested their Commander and have arrested and dissolved this whole Unit 190 , and this person named Hâm has escaped and fled to live in Vietnam, and until we have liberated, then he returned . This person came from District 109 to live in our base.

He possesses a liberal behavior and does not respect very much the assignment of the Angkar.

This person has sneaked in to rape a wife of another person twice, until that woman shouted contemptibly that: "You! Dog! What are you coming for? I am going to cut and break out your head now." He then left.

Concerning this person I have asked for an opinion from Comrade Elder Brother San already.

I beg Your Comrade to please receive them.

Report

Addressed to respected and beloved base Party, for its information.

May I send forward the name of the contemptible Ny (អានី), an extremely villainous person in the unit, for the information of the Base Party.

This person has committed cheap deeds of theft several times so far, he has stolen shirts, trousers, roots and other things. He has stolen even the mess bowls, and he did this in the Unit so far. We have assigned him to transport the paddy and rice, and he stole rice and gave it to an ox to eat. We have educated him several times but he still abuses the Party's guidelines. He is absolutely opposed to it; he refused to re-educate himself. Around his issues his family also helped in advising him, until there are disputes for very often. If examining his daily work, he is lazy, and does not care about doing the works. Lastly, he was arrested by us for stealing an ax, and had hidden it away without leaving any trace: by dismantling its handle and burnt it down, and for the blade, he brought it to the ironsmith for re-shaping twice during which times the ironsmith has refused to do it, then he forged it by himself, in order to destroy the evidence. We, as well as the militia had asked him to make it clear; he answered that he did not take it, but the owner of the ax recognized it well. Moreover, we had asked him very seriously, he said that "wherever we were going to take him to, he would not be afraid". We would like to confirm that this contemptible person was a surgical doctor in Phnom Penh who had 2 wives, the first wife was separated. Additionally, according to the information given by the people living who came from the same place [they] said that this contemptible person was very mischievous and tricky while he was living in District 109.

Therefore, we would like to bring over this above person to the base Party for its information and to assist in judging his case./.

OM Em (ឱម ឯម), his mother's name: OUCH Horn (អ៊ូច ហ៊ុន), he is currently living in Prey Chheu Teal Village, Ang Ta Som Commune, when living in the enemy's area, this youth was serving in the enemy's forces, in the Unit which has an emblem of a ghost skull "Die tomorrow" with his rank as a private. After the liberation, he moved to the youth assembling unit in Ang Tasom Commune.

Activities: Our Party has decided to bring him to the Commune militia Office for education once already. That was for the activities that he has stolen and incited to fight with our revolution, by saying that: "the force, comrades revolution were not.....(*illegible*), I used to do revolution also". During the education, this youth fled from the office twice. Later, the Party decided to bring him back to the youth office. But he still continues his stealing activities the same as before. Though he has been educated very often, everyday, he continues to steal. He had not done it only by himself, but he persuaded others to steal also. Recently, he has furtively dug up the cassava of the people in Trapeang Thom Commune in Khporp Trabaek, and he has also been educated in Khporp Trabaek once.

2- Pok Bunly (ប៉ុក ប៊ុនលី), 27 years old, his father's name: POK Chriv, mother's name:....., his parents are living in Ta Loeur's Unit.

Personal history of this Youth:

In the old regime: he was living in Phnom Penh. Before 17 April 1975, he was serving the activities in the Viet-Cong's force. After the liberation, this youth moved to live in Propeil Commune, later the Angkar transferred him to live in Ang Tasom Commune. Then, he went to live in the Youth Unit which was assembled in Ang Tasom.

His activities were: having a lot of disputes, stealing for which he was educated very often, until he was brought for education in the Commune militia Office once already.

Disputes in his works: He did the work for one day and did not go to work for one or two days. Up till the present this youth is still continuing his stealing activities, such as furtively digging up the cassava of the people in Trapeang Thom North and Khporp Trabaek Communes, though he had been educated, but still he repeated his same activities. He even said that: "Nowadays, I am not afraid to die".

Confirmation: His father was Vietnamese./.
