To be reported to Comrade Brother DUCH (ឌុច) and Brother Ān (អាណ) to be informed:

Khiev Mabouni (ខៀវ ម៉ាបូនី), alias Map (ម៉ាប៉), has conflicts with the cooperative very often and does not work hard enough. Furthermore, when Angkar convened the cadres for a meeting, this man said that they were called to eat and drink. When our committee came back, the people were called for a meeting. This man spits in a mocking manner all the time; moreover, he said, "How to become a giant so that I can eat four cows as well as two or three people a day." In conclusion, this man always opposes our Angkar.

I would like to report further to Angkar as follows:

Puot Kimheng (ព្រួត គីមអេង), in Khnach Chaor (ខ្នាចរចោរ) village, pretended to be insane – sitting on the roads in the sun, carrying packs of clothes. In fact, she was lazy to work – refusing to work; it is fine if she is taken away to be shot. This woman has a husband named Seng Hieng (សេង អ៊ឹង), who worked at the Khsae Luos (ខ្សែលួស) [Barbed Wire] Post and had two cars when they came; and in 1976, we smashed two of their children.

Concerning this additional report, we would like to ask for any opinions and instructions from Angkar for further implementation.

## Report

Sang Chek (សាំង ចឺក) said that Angkar was incapable of finding spies and bad people. This man was a secret agent for the cabinet of LON Nol north of a foreign guesthouse in Phnom Penh.

This man has an older brother named Sang Naem (សាំង ណើម), a lieutenant colonel, flying a fighter-bomber, T28. He assigned his younger brother, Sang Chek, to be a spy for the CIA of LON Nol, and Sang Chek was also a soldier. As for his older brother, Sang Naem, a lieutenant colonel, we smashed him when he was in Angtasaom commune.

Note: this man, Sang Chek, does not work hard enough; he is quite slow, and he verbally attacks our Angkar. Angkar has decided to forward this man to Brother.

These are his activities. Please, Brother, further clarify.

Report

To Angkar to be informed:

1. On the night of 15 December 1976, a young man named Chăo Phou (ចៅ ភូ), 22, in a youth unit of Kus commune, escaped from the unit which was stationed at the dry-season rice field of Prêk Mras. This guy was born in Kampuchea Kraom; his was a soldier element of Phnom Penh. He left the enemy after the fall of Phnom Penh on 17 April; he came alone. As a management measure, instructions were received to gather them together when they arrived; [he] did not have any bad activities. But on 15, [he] escaped with a palm-tree boat.
2. As to the elements who came alone, there were three more young men in Kus commune who act freely – walking around, communicating and stealing; they failed to follow our instructions so we separated them aside, but these acts still arise. [They] look unhappy. According to our observation, these three guys will cause trouble in management and leadership. [We] might not be able to lead and manage [them] in any certain situation.

Please, Angkar, be informed about their components and activities :

1. Chea Phakdey (ជា ភក្ដី), 18. His father's name is Chea Kim Eng (ជា គីមអេង), high rank in Military Police. This guy acts freely by keeping in touch with the outsiders without any assignment many times, and he has also been re-educated many times, but he has not changed. [He] gave materials, clothes and watches to the group and unit representatives and the people. The consciousness of work is inactive, slow and deceitful. When he is assigned to do any work by the group and unit representatives, he often argues and reacts badly, and he is stubborn, too.
2. Seng Chan (សេង ចាន់), 23; his father was a chief of a market in Kompong Saom. [He] is deceitful and free in term of walking around and communication as well as disobedient; he committed theft from the cooperative for food.
3. Chea Sophal (ជា សុផល), 28. According to an external source, his father was a colonel, but through his confession, he was a farmer. His activities are as follows – theft, free movement without any framework, not following instructions and not working hard. We have no grasp of his duty and rank because his confession is not certain – a student, a worker and a soldier. Chea Phakdey and Chea Sophal have a close relationship, and mostly both of them get involved in activities together. Concerning these three guys, please, Angkar, be informed and help solve this problem.

To Comrade Brother to be informed:

1. Thim Svat (ធីម ស្វាត); according to the information from the people, he was actually a second lieutenant, but he lied to us. He said he was a corporal. This guy is in conflict with every work – slow, inactive, bold-faced; he is never cheerful. [He] hit the metal carelessly; no one dare to stay near him. This guy was assigned to help in a workshop for a period of time.  
For detailed matter, may Comrade Brother ask for more information.  
As for the three people sent by Angkar this morning – Et Hum (អេត ហ្គុំ), Men Tit (ម៉េន ទិត) and Kiet Sun (គាត ស៊ុន), we have not asked anything yet. It is up to Brother.

## Report

Tin Rithy (ទ័ន រិទ្ធី), a new youth who came on 17 April. This guy was sick, and he came to stay for being cured at Grandfather's Social Action hall. But Tin Rithy said that on 31/12/77 many troops would be sent here; he waited to see, but he did not see. The Grandfather of Social Action asked Tin Rithy, "Why do you know, Comrade?" Rithy said that Khiev Samphan (ខៀវ សំផន) had told him in the Southwest.

Moreover, Rithy said that he got along with a new woman in Chêk district, but he did not know what the result would be; he, himself, told a village chief that he did not know what to do; it is up to [the village chief]. Please be informed that Rithy pretended to be sick and sleep during the day, but at night he went out for the purpose of stealing; he has pilfered palm juice twice, cassava once, fish kept at the medical unit once, a pot of cooked rice, and four coconuts.

Concerning this Rithy, we took him to be re-educated at Angsleng School for one night, but at 11 p.m., this guy escaped and brought with him a jar of cooked rice, but now he has been arrested by the cooperative people of Samlân commune and sent back to Kus commune. On 10/1/78 at 11 a.m., when Rithy got to Samlân commune, he managed to steal cooked rice, rice and pot of the cooperative of Samlân commune. Note: this guy, during the day, hid in the jungle about two kilometers from National Road 31. When the people of Samlân commune asked him, Rithy said that [he was going to his hometown] in Kampong Cham, but this guy was heading south. He might have a purpose to go to Vietnam.

The above information is a report for Angkar. Now Angkar of District 105 has decided to let us send Rithy to Comrade Brother.

## Report

To be submitted to Angkar to be informed about various activities in the base:

- Respected Angkar: The woman named Sean Koeun (សៀន គឿន) from 107, whom we reported to Angkar on 12/10 that she had escaped, has been found now. According to an examination with district troops, this woman got lost because on 11/10 [she] went to grow cassava at Prey Leu; she asked permission from the unit chief to defecate. After she defecated, she saw wild fruit, so she walked around and picked them; as a result, she got lost; the troops arrested her and sent her back to the base.

- On 10/10, On Vet (អ៊ិន វិត), a new person from 109, said that he wanted to solve the country's problems because he could do it, but he was not allowed to do it. And as for the problem of illness, if the country was not solved, his illness would not improve. These were On Vet's words. According to our examination, he is not sick, and he does not have any illness. This guy is very deceptive; he does not work hard; sometimes he does not go to work.

So may Angkar help judge as well as provide opinions and instructions. Furthermore, [he] committed a lot of theft such as: [he] has pilfered coconuts, cassava, rice, eggs, ducks and chickens etc. Most of those who commit theft are people from 109.

- Living-condition situation: Requested to clarify for Angkar that since the cassava was exhausted, the conditions are rather bad; four cans of rice are given to 10 people a day. So it is rather bad.

Request that Angkar be informed.
