To *Bang Nuon*,

To respected *Bang 89*

1. Now *Achar Kâng's* wife has already left the Division hospital.

Achar Kâng's (អាចារ្យកង) wife was hospitalized in Division 164 in late 8/76 for 4-5 days. Then a man named Chheng (ឆេង) transported her away back. She followed a comrade named Bân (បន), living with comrade Krin (គ្រីន), who took her to the hospital for medical check-up. She said that her child often got sick and she was not also fine and wanted to take time visiting some friends at this port. Therefore, she requested to have medical check up and get her sickness cured.

2. Request to search for *Chheng* and *Bân* who are related to this matter.

Therefore, recently, we have not seen her appearing anymore.
