We would like to report to the beloved Party as follows:

In the past 2 or 3 days, there was a female combattant named "Kâp" who was walking around to make contacts with various bases in District 105 to request rice, and during which time she expressed some inappropriate behaviour towards the commune Committee, such as Kouss Commune and Ta Pheim Commune and Trapeang Thom Tbaung Commune (Southern Trapeang Thom Commune).

When she arrived at Kouss Commune, she borrowed a bicycle from there to ride around to seek rice, in order to provide it for the needs of the people who are lacking food.

I have asked her to make it clear: she told that the Angkar (Organization) assigned her to go and seek it personally. Beside this, she had several letters, some of which were given to Kouss Commune, and one letter was given to Trapeang Thom Tbaung Commune. According to what I have examined on this request, I found that it was not appropriately in conformity with the process of contacting from one place to another. Today, I confined female Comrade "Kâp" at our place temporarily, not to let her walk around from one base to another any more.

Therefore, We would like to request to the Party on the issue of this female Comrade, what will the Party decide, we are always waiting to receive any advice as required by the Party.

With regard to this letter of this above female comrade, we have attached it herewith.

With high respect for the duty of protecting the revolution.
On 6/10.

The named **Kao Khun**, aged 29, formerly was living in Prek Phneuv, his occupation was the person in charge of a generator. On 17 April, he went out to live in 109 District. The initial reason was that this person named Khun had stealthily picked the rice stalks and stir fried them and ate them, because he had not eaten enough porridge. Since he had stolen the rice stalks the Angkar (Organization) arrested him and put him in the Re-education Office of the District 109. So far the above person has been taken out to work, at night he slept in the middle in the open field and was guarded. After he learned that all the guards were falling asleep at midnight, he escaped from there. He was arrested and kept in the confinement by the militia of the Ang Keuv Commune. He was assigned to pull the rice shoots in the open field during the night and to sleep there. At 4 o'clock at dawn he fled again when upon all the guards were falling asleep. He was walking through the highland forest, after asking what did he have to eat on the way? He told that he picked the guava and ate it, and he slept in the highland forest for 2 nights. When he was sneaking out of the forest at dawn, he was suddenly arrested by the local militia in Kouss Commune and was transferred here.

It is to note that: When he was arrested in Ang Keuv Commune, the above person gave a statement that there was a militiaman there gave him a new cotton scarf, after seeing that he had nothing to cover his body.
