To respected Comrade Ǻn អានៈ:

Regarding the ten traitors that Khpop Trabèk ខ្ពបត្របៃក Subdistrict sent in yesterday, propose Comrade interrogate harshly and thoroughly [ស្រួរឈ្លើចល្លើ], interrogate to find all of their network, because all of these traitors, when they worked dry season rice, they gathered together and thought about running off to Vietnam. We grasped this, and moved them to the base. Later on at the base, all of these traitors gathered together again and prepared various supplies and encouraged one another to run off to Thailand. Propose you interrogate to confirm this in detail.

Report

To beloved Comrade Saom សោម, District 105 Reeducation!

Request to send in the three traitors named below:

1 - Uy Chānthān អ៊ួយ ចាន់ថន, three stripes, intelligence agent [kinh គិញ], born in Kbal Koh ក្បាលកោះ, Kien Svay កៀនស្វាយ District, Kandal កណ្តាល Province, came out of Kampong Saom កំពង់សោម.

2 - Tong Sāmbuor តុង សំបួរ, in the Navy, Chief Machinist Mate, born in Soeng សឹង Subdistrict, Battambang បាត់ដំបង Province, came out of Kampong Saom កំពង់សោម.

3 - Ie Lim Touch អៀ លីមទូច, 1st Lieutenant, newly learned about, born in Peuk ពើក Subdistrict, Ang Snuol អង្គស្នួល, Kandal, came out of Phnom Penh.

All three of these, after transplanting they were entered into the mechanics unit to help saw wood to make water wheels. They were each used as individual forces in the

mechanics section. After these three entered this section, many things started disappearing, like hammers and anvils. Some of the hammers were found in the water, but now two anvils are still missing and cannot be found. Another thing, during the transplanting, Tong Sâmbuor តុង សំបួរ said the words, “When the transplanting was over, all of this despicable group will surely meet their final day.” He said this in the dark of night when just his people were present, but their faces could not be recognized, just the voice of Sâmbuor សំបួរ, and he continued on saying that in the village they had already begun destroying in a seemingly legal way. We had them raise chickens, but they could not. We had them take care of livestock, but they could not. When they were removed and placed in the unit, we saw these destructive activities too. So, request to send them to Comrade at the Reeducation Office to make all the arrangements.
