Subject: Implementation of Expert Medical Report/Re "Reclining Chair" for IENG Sary

Dear Tanya,

you might remember our meeting in the courtroom last month on the above subject. During that meeting it was suggested that the same kind of mattress in use in the Detention Facility by Mr. IENG Sary be also used in the holding cell.

We are in the process of requesting purchase of the "reclining chair". However, i was wondering whether Mr. IENG Sary can indicate whether in the Detention Facility he uses a chair which he finds comfortable and would like to have also when in the courtroom and perhaps in the holding cell.

THX and regards,

Matteo
