

D23698
ANC 7U BOX 17

10 December 1978

Attention to Comrade Krin and Comrade Nath, with love
and nostalgia,

136 – IIK/78

We are instructed by Angkar that Comrade Sok and Nath are to be given a new task in the near future.

Because the party has opened an education hall for party cadres for the consecutive sessions through 1978, comrades have been able to receive some training before carrying out their new tasks. We would like to request that both of you properly manage the tasks in the company and jointly solve the remaining issues.

Upon the completion of the tasks, we would like to request that Comrade Krin help facilitate a return-to-the-country trip of Comrade Nath and a child named San Feng and make sure they are safe and well.

We hope that you both, comrades, will together make strenuous efforts to completely solve the remaining issues in order to meet the request and instructions of our party.

We would like to wish you both, comrades, very good health and success in your next endeavors.

With highly revolutionary fraternity
Commerce Committee
