THE MEETING BETWEEN *BROTHER* NHEM (ញឹម) AND BOTHER PHIM(ភឹម) AT
WAT PREAH KEO IN LATE 1975

When *Brother* Phim came to take the office replacing the Standing Committee, he took the chance to work with comrades who consequently lead a traitorous movement.

With *Brother* Nhem (ញឹម), *Brother* Phim (ភឹម) spent a morning working on the overview of the 2-year traitorous plan at Wat Preah Keo.

In his opening remark of a meeting, *Brother* Phim made a joke that, “To join a revolution, one needs to share a similar mind; to become in-laws, one needs to have the same liver; and to become a CIA, one needs to have the same gall bladder!” After such a speech, *Brother* Phim laughed and took out a cigarette to smoke. At that time, *Brother* Nhem said that it was up to you [Ta Krohe]; whatever you do, I would accept it. The back foot followed the front foot; the groom was up to the bride, who orders whatsoever, he would chase with all three to four feet.

Brother Nhem made a joking statement that the giant and the giant worked individually; the groom side built silver and golden bridge across the Mekong River! *Brother* Phim laughed taking his hand to scratch the head. Then *Brother* Phim started to comment, “I have invited you here in order to view the work of “CIA” together. What has been the achievement for the last two years? So far, we have no time to work on this; now we are taking this whole morning to work. But this work is not quite urgent; we just want to have fellowship with comrade Nhem. Comrade Nhem reported that I did not think of such work

1. There are plenty of CIA agents in the Northwest Zone; disguised themselves for a long time. Ya (យ៉ា) also knew, Khuon (ខ្មួន) also knew, Deoun (ធើន) also knew, and so did others. Therefore, the linkage presentation must be written down.
2. The account is fake, which was converted from the old confession to the new one. Therefore, it is not realistic.
3. Must rewrite it
